

LIFTSAFE CUSTOMER PORTAL HANDBOOK

EVERYTHING YOU NEED TO KNOW TO GET STARTED

Liftsafe Customer Portal

Custom tracking and ordering software

Over the past three decades of business development and growth, the Liftsafe Group of Companies has always looked for new strategies to improve how our clients are able to operate efficiently. In 2015, we saw a need to provide our customers with a secure online system to allow our clients to schedule and keep track of their inspections and repairs, while eliminating the need for paper records. We invested time and resources in creating a custom software system to improve our customer's experience while saving them time and money.

Is it time to take your inspections and repairs online?

The contents of this handbook will help you determine your documentation and compliance framework and serve as an instructional guide for using our online platform.

Signs you need the Liftsafe Customer Portal

Here are some signs it may be time to upgrade from paper records and start managing your inspections and repairs more efficiently.

No single source of information

If you find yourself organizing and managing multiple installations, inspections and repairs for your facility, Liftsafe can provide the solution. Not only are we a single source for all your facility needs, but you can book, set reminders and house documents all in one online system.

Lost time when booking

Don't waste hours trying to source, contact, request quotes and book your inspections and repairs for multiple pieces of equipment. You can easily book online with our customer portal, and once in the system, automatic reminders can be set for upcoming inspections so your equipment will always stay safety compliant.

Reports are hard to share

We understand that paperwork can be a nightmare, and keeping track of years worth of inspection and repair documentation only adds to the clutter. Keep everything housed online in our secure portal database, where you can view, update, store, download and share your files.

There is no tracking

Multiple pieces of equipment, in multiple locations, serviced internally and externally can be difficult to track. Allowing our software to take the load off your shoulders could be an ideal solution with documentation that is only a few clicks away.

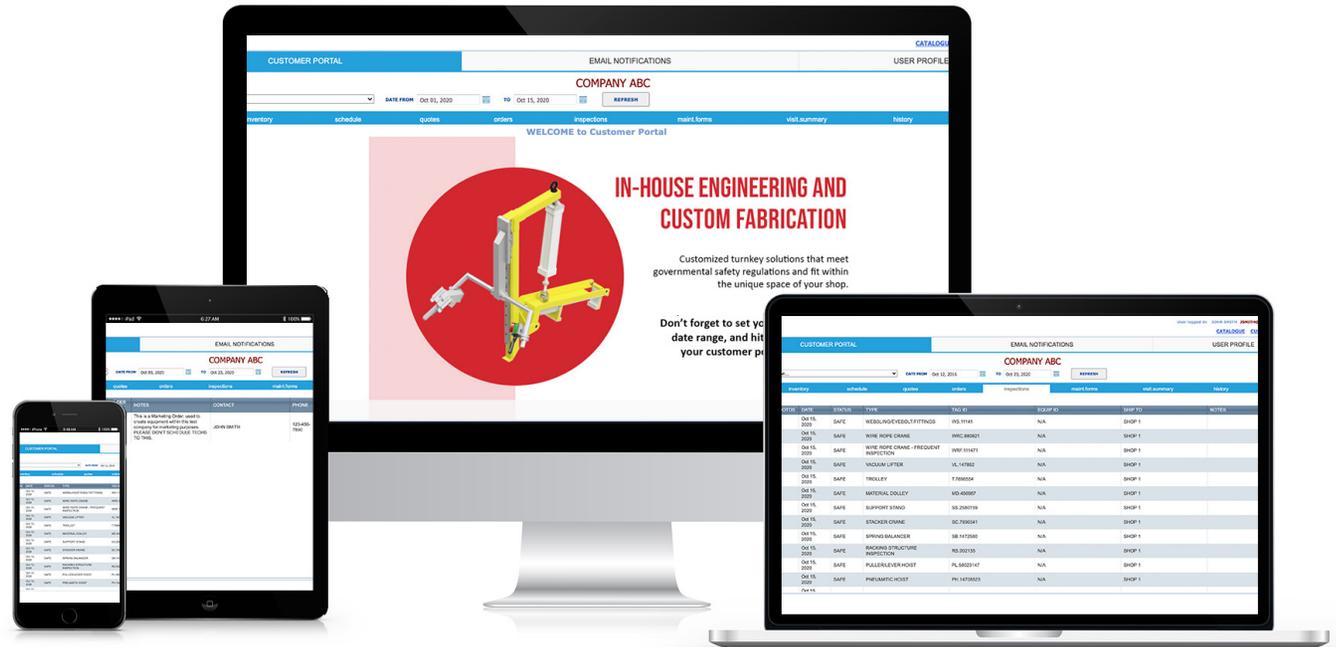

Potential data loss with no backup

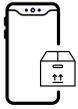

Find yourself needing to provide proof of inspection ASAP with no record in sight? Our system will keep your documents secure and allow for easy access to information. Organize your data based on date, equipment type, etc.

Compliance reminders

Wish that you could set the alarm for your next inspection deadline? That is precisely what our customer portal will deliver. Customize your online reminders to keep track of when upcoming inspections are due and set reminders based on your needs.

All of your reports in the palm of your hand

Your customer portal can be with you, anytime, anywhere.

The Liftsafe Customer Portal has been updated to work on both android and IOS devices. That way you can always stay connected, no matter your location. This app will allow you to book an inspection or view your data the moment you need it.

Complementing our existing Liftsafe Customer Portal, the user-friendly Liftsafe Mobile App features the ability to view certificates and request service, all from your smart phone.

Scan history

Scan items to see their current status.

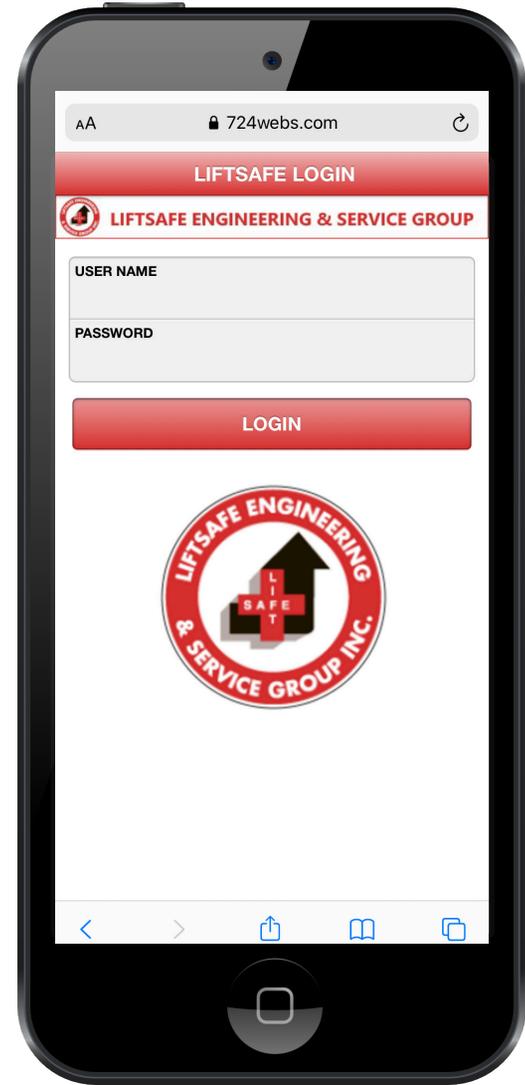

View Certificates

Load the certificate in the browser window, which can be easily panned or zoomed on your screen.

Request Service

Automatically populated with your name and email address, your request will be submitted directly to the Liftsafe team.

What is the Liftsafe Customer Portal?

At Liftsafe Engineering and Service Group Inc., we have simplified how our customers receive their certificates, documents and reports in a timely, efficient and environmentally friendly manner. Our customer portal reporting system is designed to give you 24-hour access to your reports, certificates and inspections. This online tool eliminates the need for paper records and contains a detailed inventory of your equipment.

How can we support?

- Paperless reporting
- Free access for all current customers
- Full summary report of all inspections and orders
- Full access of inspection and equipment records 24/7
- Manage equipment tasks, approvals and automate inspections
- Complete inventory of equipment with documented photos
- Advanced sorting and segmentation functionality
- Advanced data analysis with year to year data
- Available as an app for iOS and Android
- Unlimited document uploads and storage
- Full-service tracking of your equipment
- Review and approve repair quotations
- Real-time updates and notifications
- Complete cost analysis of projects
- Free portal training provided
- Secure access to all files

One stop online solution

Step 1: Track

Sort and track the orders, repairs and inspections of your equipment by date, time and location.

Step 2: Schedule

Schedule multiple equipment inspections and repairs on an immediate and annual basis.

Step 4: Approve

Request changes to quotes and orders at any time.

Step 3: Edit

Approve all outstanding orders and quotes remotely at any time.

Services & Functions

Account Set-Up

Learn how to personalize your account notifications and reset your password.

Customer Portal Login

We identify how to login to the secure customer portal and where to get assistance.

Inventory Tab

We provide you with complete inventory control and authority.

Schedule Tab

Sort and review upcoming and past projects.

Quotes Tab

Identify and approve your outstanding quotes.

Orders Tab

View and approve outstanding orders.

Inspections Tab

View, organize and print all of your inspection data.

Maintenance Tab

View all maintenance documentation and records.

Site Visit Summary

Generate an overview report of the work performed and the status of your equipment.

History Tab

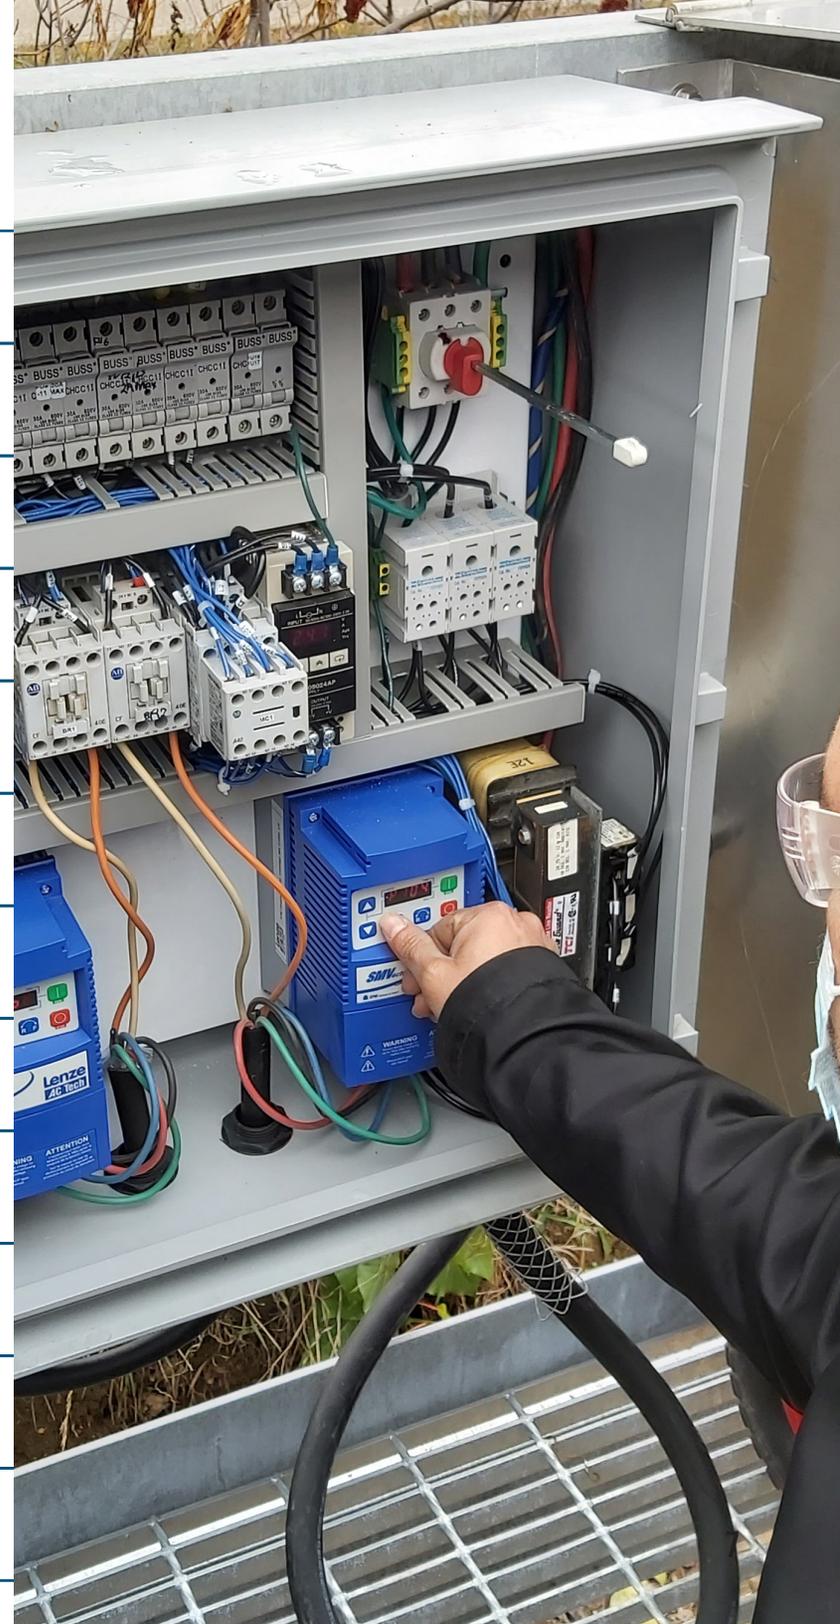

A high-level overview that identifies all work completed within a given time frame.

Documents Tab

Access and upload relevant documents for any piece of equipment.

FAQ

Get your questions answered. Our most frequently asked questions by our current users.

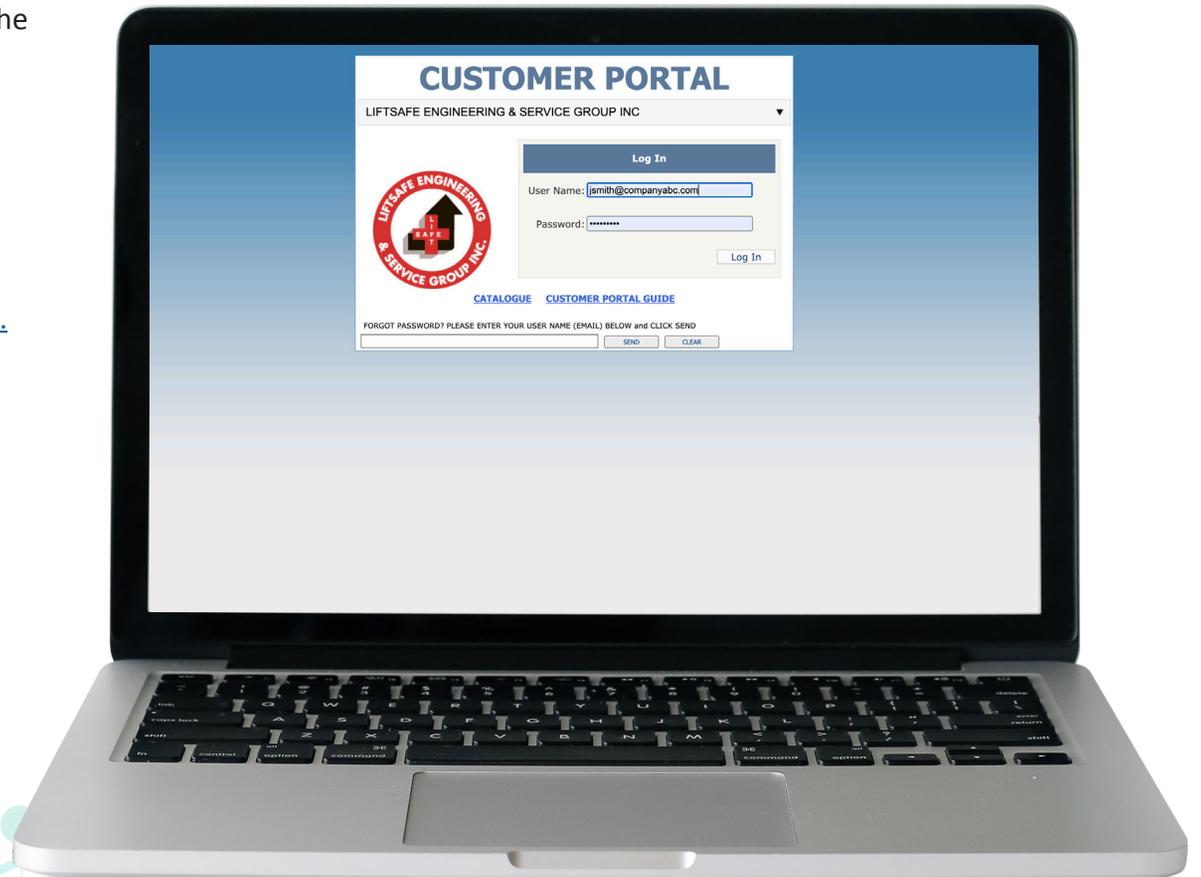

Getting started

As a customer of Liftsafe Engineering and Service Group, you have access to our Customer Portal and all of your project information.

How to set up an account.

- 1 Our dedicated Customer Portal Representatives will get you started by setting up your account details in our system. Your secure login information will be emailed to you automatically. If you have not received this information, please contact us at the contact information below.
- 2 You will be sent your username and temporary password.
- 3 We recommend changing your password once you have access. [Instructions can be found here.](#)
- 4 Continue to login details: [How to login](#)
- 5 If you did not receive your username and password, please contact us via one of the following methods.
 - a. Toll Free: 1-800-977-2005
 - b. Phone: 519-896-2430
 - c. Email: info@liftsafeinspections.com

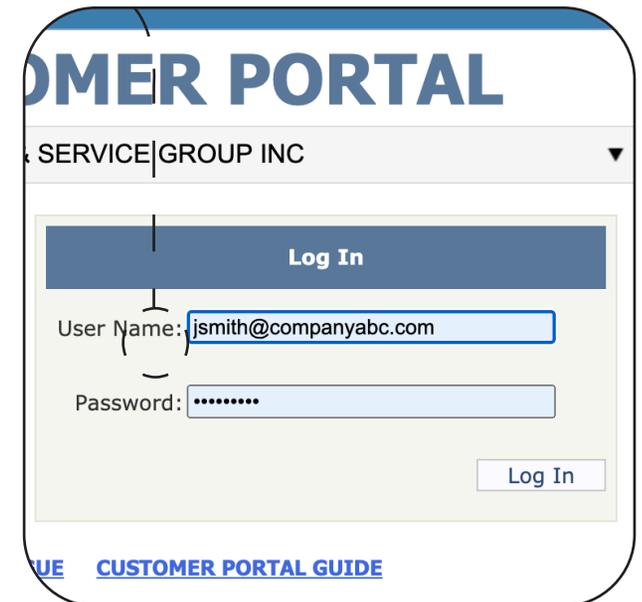

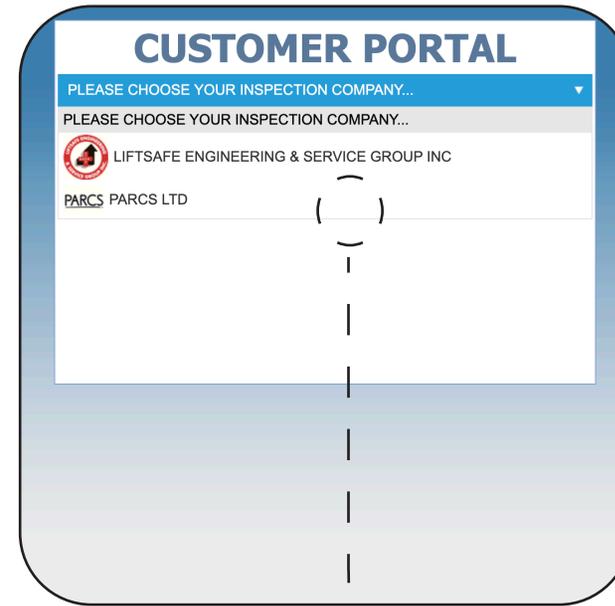

How to login

The Customer Portal can be accessed via our website at the bottom of every page. It is recommended that you bookmark the following link for quick and easy access to the portal.

<https://724webs.com/liftsafe/CPortalLogin.aspx>

Once the Customer Portal login page is visible select LIFTSAFE ENGINEERING & SERVICE GROUP INC. from the drop-down menu.

- 1 This login screen can only be accessed by authorized representatives and requires a secure login and password for your protection.
- 2 From the drop-down menu select the company that pertains to your inspections or repairs.
- 3 Enter your user name and password.
- 4 Select the login button.

It is recommended that you keep the login and password confidential to ensure your inspection certificates, documents and quotes are kept safe.

If you are having trouble logging in you can message our team at the bottom left hand corner of the login screen, and a dedicated Customer Portal Representative will provide assistance.

Personalize your account

CUSTOMER PORTAL **EMAIL NOTIFICATIONS** USER PROFILE

Once logged in, you will notice three main tabs at the top of the page reading: CUSTOMER PORTAL, EMAIL NOTIFICATIONS & USER PROFILE.

EMAIL NOTIFICATIONS

Important: Your email notifications are pre-set to send you reminders for your inspections, and services. You can edit the frequency of notifications using the following instructions.

- 1 Once you have clicked on the email notifications tab you can select or de-select any of the boxes that do or do not apply to your account.
- 2 Once satisfied with your notification selections, click save. Not clicking save will cause your updates to be lost when you navigate away from the page.

EMAIL NOTIFICATION OPTIONS

Daily portal notifications

- Number of new quotes posted to your account
- Number of new orders posted to your account
- Number of new inspection certificates posted to your account
- Number of new maintenance forms posted to your account
- Number of new documents posted to your account

Outstanding service quote notifications: Receive outstanding service and repair quote notifications and adjust the frequency of your service reminders. You can customize your notification to daily, weekly, monthly, quarterly, semi-annually and yearly.

Note: This is a highly recommended notification to ensure you stay up to date with your repairs and inspections.

Outstanding inspection quotes notification: Receive outstanding inspection quote notifications and adjust the frequency of inspection reminders. You can customize your notification to daily, weekly, monthly, quarterly, semi-annually and yearly.

Inspection month notification: This section allows you to determine when you wish to receive a reminder that a technician will be visiting your facility. This can be set up as a daily, weekly, monthly, quarterly, semi-annually or yearly reminder.

Site visit notification: These email alerts provide you with a notification when the site visit summary is available to be reviewed. It is a one-time notification when the work order is completed.

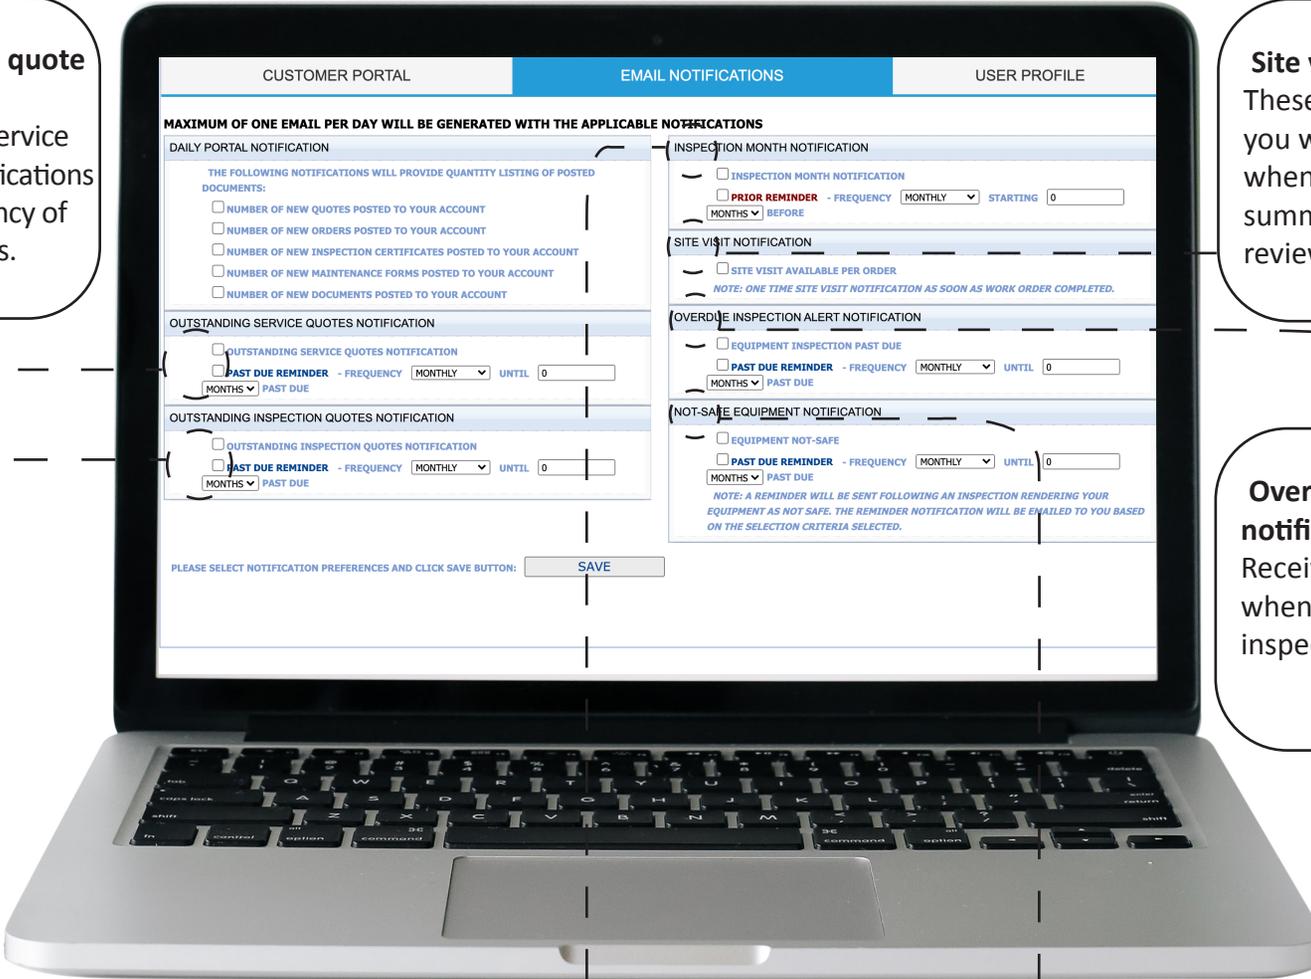

Overdue inspection alert notification: Receive this notification when your equipment inspection is past due. Reminders for overdue inspections can also be set up as a daily, weekly, monthly, quarterly, semi-annually and yearly notification, and you can set an automatic end to these notifications.

Note: This is a highly recommended notification to ensure you stay up to date on your equipment inspections to meet all regulations.

Not-safe equipment notification: Reminders for not-safe equipment notifications can be set up as a daily, weekly, monthly, quarterly, semi-annually and yearly alert, and you can set an automatic end to these notifications.

Outstanding Service quote notifications:

Receive outstanding service and repair quote notifications and adjust the frequency of your service reminders.

Site visit notification:

These email alerts provide you with a notification when the site visit summary is available to be reviewed.

Overdue inspection alert notification:

Receive this notification when your equipment inspection past due.

Outstanding inspection quotes notification:

Receive outstanding Inspection quote notifications and adjust the frequency of inspection reminders.

Inspection month notification:

This section allows you to determine when you wish to receive a reminder that a technician will be visiting your facility.

Not-safe equipment notification:

Reminders for not-safe equipment notifications can be set up as a daily, weekly, monthly, quarterly, semi-annually and yearly alert, and you can set an automatic end to these notifications.

User Profile – reset password

The USER PROFILE tab is where you can reset your password when you first get access to your account and can be accessed at any time for security changes. Your company information and email on file will be listed. To reset your password:

- 1 Click on the user profile tab.
- 2 Type in your existing password.
- 3 Type in your new password.
- 4 Retype your new password.
- 5 Click save.
- 6 If an error occurs, please contact us via one of the following methods.
 - a. Toll Free: 1-800-977-2005
 - b. Phone: 519-896-2430
 - c. Email: info@liftsafeinspections.com

Customer portal home page

The CUSTOMER PORTAL tab is where you will find all of your inspection and service data. This document will help you navigate the portals many features and processes.

The following can be viewed on all tabs:

Top right-hand corner

- User information: login name and email is displayed
- Logout: logout of the Customer Portal at any time
- Catalogue: the Liftsafe Engineering catalogue highlights our products and services
- Customer Portal guide: a digital version of the Customer Portal Handbook

Main search bar

Use this search bar for all tabs to narrow your search criteria by location and date.

Important: Please remember to select refresh every time a change has been made to your selection or date range.

Main tab

Within the main tab of the customer portal you will see our welcome messages feature key product offers and promotions.

Navigating the inventory tab

The INVENTORY TAB allows you to view and maintain your inventory/equipment. This is where you will book and control your inventory & inspections. This feature is included with all active Customer Portal accounts.

HOW IT WORKS

1 LOCATION COMPANY ABC (H.Q.)

2 DATE FROM Jan 01, 2020 TO Feb 11, 2021

3 REFRESH

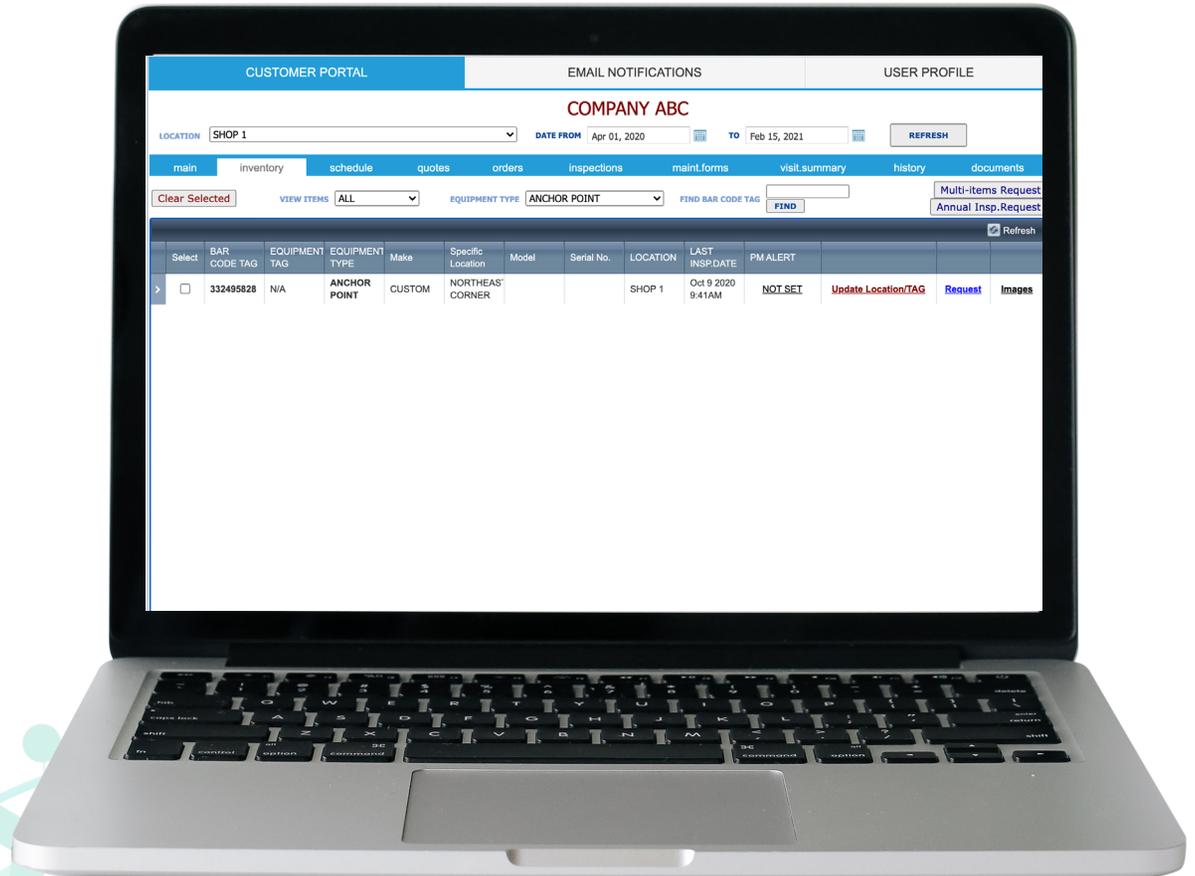

- 1 Select your location.
- 2 Select your targeted date range.
- 3 Select refresh.

Sorting based on location

The location drop-down menu allows you to access specific information on each of your locations if applicable. To select one specific location, select the location from the drop-down menu and click.

Sorting based on date

This field can be adjusted to backdate and receive further information on previous work. By clicking on the calendar, you will be able to select your targeted date range. Once your date range is selected, press the refresh button to update. This function allows you to filter and locate both current and old data.

How do I refine my search?

The screenshot shows a search interface with the following elements:

- LOCATION:** Please choose... (dropdown)
- DATE FROM:** Feb 01, 2021 (calendar icon)
- TO:** Feb 15, 2021 (calendar icon)
- REFRESH:** button
- Navigation Menu:** main, inventory, schedule, quotes, orders, inspections, maint. forms, visit.summary, history, documents
- Search Criteria:**
 - VIEW ITEMS:** ALL (dropdown)
 - EQUIPMENT TYPE:** Please choose... (dropdown)
 - FIND BAR CODE TAG:** (input field)
 - FIND:** button
- Buttons:** Clear Selected, Multi-items Request, Annual Insp.Request

The **VIEW ITEMS** drop down menu provides the ability to filter by all and past due equipment, to find out which items require immediate attention.

EQUIPMENT TYPE: Specify the equipment type you wish to find. You must either select all or a specific equipment type.

FIND BAR CODE TAG: Search by the bar code tag of your equipment. Find specific equipment quickly.

Important: Clear all search data before starting a new search.

How do I read the data?

Select	BAR CODE TAG	EQUIPMENT TAG	EQUIPMENT TYPE	Make	Specific Location	Model	Serial No.	LOCATION	LAST INSP.DATE	PM ALERT
--------	--------------	---------------	----------------	------	-------------------	-------	------------	----------	----------------	----------

Once you have refined your search, your inventory data will display under the tool bar menu. The tool bar is interactive, all search criteria can be sorted to ensure finding your orders is easy and efficient. To verify if a heading is interactive you can simply scroll over the heading. If interactive a message will appear saying “click here to sort”.

Tool Bar Includes

Bar Code Tag	Internal certificate number that Liftsafe provides when tagging equipment.
Equipment Tag	Number for the client’s external use when tagging equipment.
Equipment Type	Type of equipment that has been inspected or repaired.
Make	Equipment brand.
Specific Location	Location where the equipment was at the time of inspection within a facility.
Model	Model code for the brand.
Serial No.	Number located on the equipment.
Location	Customers site location.
Last Insp. Date	Date of last inspection performed by our team.
PM Alert	Preventative Maintenance Alert set to a frequency based on needs of equipment (monthly, annually etc.)

How do I perform an annual inspections request? (single item)

- 1 Go to the top right corner and click on the ANNUAL INSP. REQUEST button.
- 2 This will open a pop-up window showing all of your annual inspection items for your location.
- 3 Fill in the form including:
 - a. Equipment: items you wish to have inspected.
 - b. Location: choose from the locations listed.
 - c. Message: include any additional information regarding your request.
- 4 Click the send email button.
- 5 Your request will be confirmed by one of our reps. If you encounter any issues contact us at 1-866-496-6600.

The screenshot shows a web browser window titled 'ANNUAL INSPECTION REQUEST'. At the top, there are two buttons: 'Multi-items Request' and 'Annual Insp.Request'. The 'Annual Insp.Request' button is highlighted with a red box and a callout '1'. Below the buttons is a form with the following fields:

- ITEM ALL ITEMS**: A dropdown menu with 'ALL ITEMS' selected. Callout '3' points to this field.
- EQUIPMENT**: A text input field with 'ALL ITEMS' entered.
- COMPANY**: A dropdown menu with 'COMPANY ABC' selected.
- LOCATION**: A dropdown menu with 'Please choose...' selected. Callout '2' points to this field.
- SEND TO NAME**: 'LIFTSAFE'
- SEND TO EMAIL**: 'support@liftsafeinspections.com'
- CC EMAIL**: A text input field.
- REQUEST**: A dropdown menu with 'REQUEST FOR ANNUAL INSPECTION' selected.
- MESSAGE**: A large text area.
- REQUESTED BY**: 'John Smith'
- SEND EMAIL**: A red button with a callout '4' pointing to it.
- RETURN**: A blue button.

At the bottom of the window, there is a 'REQUESTS' table with one row visible.

How do I set PM Alerts?

A PREVENTATIVE MAINTENANCE alert, assigns PM frequency relative to each piece of equipment. Remember to set an email alert for your PM schedules to ensure your equipment is always properly maintained.

AG	EQUIPMENT TAG	EQUIPMENT TYPE	Make	Specific Location	Model	Serial No.	LOCATION	LAST INSP.DATE	PM ALERT
328	N/A	ANCHOR POINT	CUSTOM	NORTHEAS' CORNER			SHOP 1	Oct 9 2020 9:41AM	NOT SET

A callout bubble with a red border and a red '1' points to the 'PM ALERT' column, specifically to the 'NOT SET' value in the first row.

- 1 Simply go to the column that says PM alert, click on NOT SET. The update item pop-up will open and you can adjust the PM alert frequency before selecting the save button.

How do I submit a multi-items request?

- 1 Go to the top right corner and select the MULTI-ITEMS REQUEST button.
- 2 This will open a pop-up window showing all of your annual inspection items for this location.
- 3 Fill in the form including:
 - a. Equipment: items you wish to have inspected.
 - b. Location: choose from the locations listed.
 - c. Request: list options.
 - d. Message: include any additional information regarding your request.
- 4 Click the send email button.
- 5 Your request will be confirmed by one of our reps. If you encounter any issues contact us at 1-866-496-6600.

The screenshot shows a web interface for submitting a multi-items request. At the top, a button labeled "Multi-items Request" and "Annual Insp.Request" is highlighted with a red box and a callout '1'. Below it, a pop-up window titled "NOTIFICATION REQUEST" is shown. Inside the window, a callout '2' points to the window itself. A callout '3' points to the "EQUIPMENT" input field. A callout '4' points to the "SEND EMAIL" button. The form includes fields for "COMPANY" (COMPANY ABC), "LOCATION" (Please choose...), "SEND TO NAME" (LIFTSAFE), "SEND TO EMAIL" (support@liftsafeinspections.com), "CC EMAIL", "REQUEST" (Please Choose...), and "MESSAGE". A "REQUESTED BY" field shows "John Smith". A "RETURN" button is at the bottom right.

How do I update my tag locations? (where is my equipment)

- 1 Select update location.
- 2 Pop-up will appear with item and corresponding bar code number.
- 3 Update location from dropdown menu and select save.

	Specific Location	Model	Serial No.	LOCATION	LAST INSP.DATE	PM ALERT	
USTOM	NORTHEAS CORNER			SHOP 1	Oct 9 2020 9:41AM	NOT SET	Update Location/TAGS

How do I remove inventory items?

Select the location, date and click refresh (remember you must always press refresh when you are adjusting date ranges and locations).

Select	BAR CODE TAG	EQUIPMENT TAG	EQUIPMENT TYPE	Make	Specific Location	Model	Serial No.	LOCATION	LAST INSP.DATE	PM ALERT			
<input checked="" type="checkbox"/>	495828	N/A	ANCHOR POINT	CUSTOM	NORTHEAST CORNER			SHOP 1	Oct 9 2020 9:41AM	NOT SET	Update Location/TAG	Request	Images

- 1 Select the inventory item you wish to remove (select using the check box at the left hand side of the toolbar).
- 2 Click the request link in the tool bar.
- 3 The notification request pop-up will appear. Select REMOVE FROM INVENTORY from the request drop down menu.
- 4 Click the send email button.

How do I generate a pdf?

Be sure to select location, date and click refresh (remember you must always click refresh when you are adjusting date ranges and locations).

- 1 Click on 'select' found on the far right column of any quote. A preview of the quote will generate.
- 2 Click the open quote button above the preview menu to generate the pdf in a new window. This PDF will detail the work needed and the cost associated.

How do I approve/decline a quote?

Be sure to select location, date and click refresh (remember you must always click refresh when you are adjusting date ranges and locations).

- 1 Click on 'select' found on the far right column of any quote. A preview of the quote will generate.
- 2 Two buttons, approve and decline can be found at the bottom of the quotes tab. Select approve or decline.
- 3 Upon clicking the approve button an email will be generated to begin scheduling.
- 4 Your request will be confirmed by one of our reps. If you encounter any issues contact us at 1-866-496-6600.

The screenshot shows a software interface for managing quotes. At the top left, there is a 'SELECT' button. A red circle with the number '1' is placed over this button. The main area displays a list of quotes, with a preview of a quote shown below it. A red circle with the number '2' is placed over the 'APPROVE' and 'DECLINE' buttons at the bottom of the interface. The interface also includes a 'CUSTOMER NOTES' section and a 'STATUS REQUESTED FOR APPROVAL' indicator.

How do I make comments?

Be sure to select location, date and click refresh (remember you must always click refresh when you are adjusting date ranges and locations).

- 1 Click on 'select' found on the far right column of any quote. A preview of the quote will generate.
- 2 At the bottom of the quotes tab you will see a customer notes section. Here you can make any comments or document any questions for us to review.
- 3 Upon clicking the approve button comments will be sent to a representative.

The screenshot shows the same software interface as above. A red circle with the number '1' is placed over the 'SELECT' button. A red circle with the number '2' is placed over the 'CUSTOMER NOTES' section. A red circle with the number '3' is placed over the 'APPROVE' button. The interface also includes a 'STATUS REQUESTED FOR APPROVAL' indicator.

Navigating the orders tab

The ORDERS TAB is similar to the QUOTES TAB and contains all of your sales orders. You will see a unique order ID and can reference based on date. Here you will be able to view a detailed breakdown of the work performed and any associated costs.

The screenshot shows the top navigation bar for 'COMPANY ABC'. It includes a 'LOCATION' dropdown menu set to 'COMPANY ABC (H.Q.)', a 'DATE FROM' field set to 'Jan 01, 2020' and a 'DATE TO' field set to 'Feb 11, 2021'. A 'REFRESH' button is located to the right of the date fields. Red circles with numbers 1, 2, and 3 are overlaid on the location dropdown, the date range fields, and the refresh button respectively.

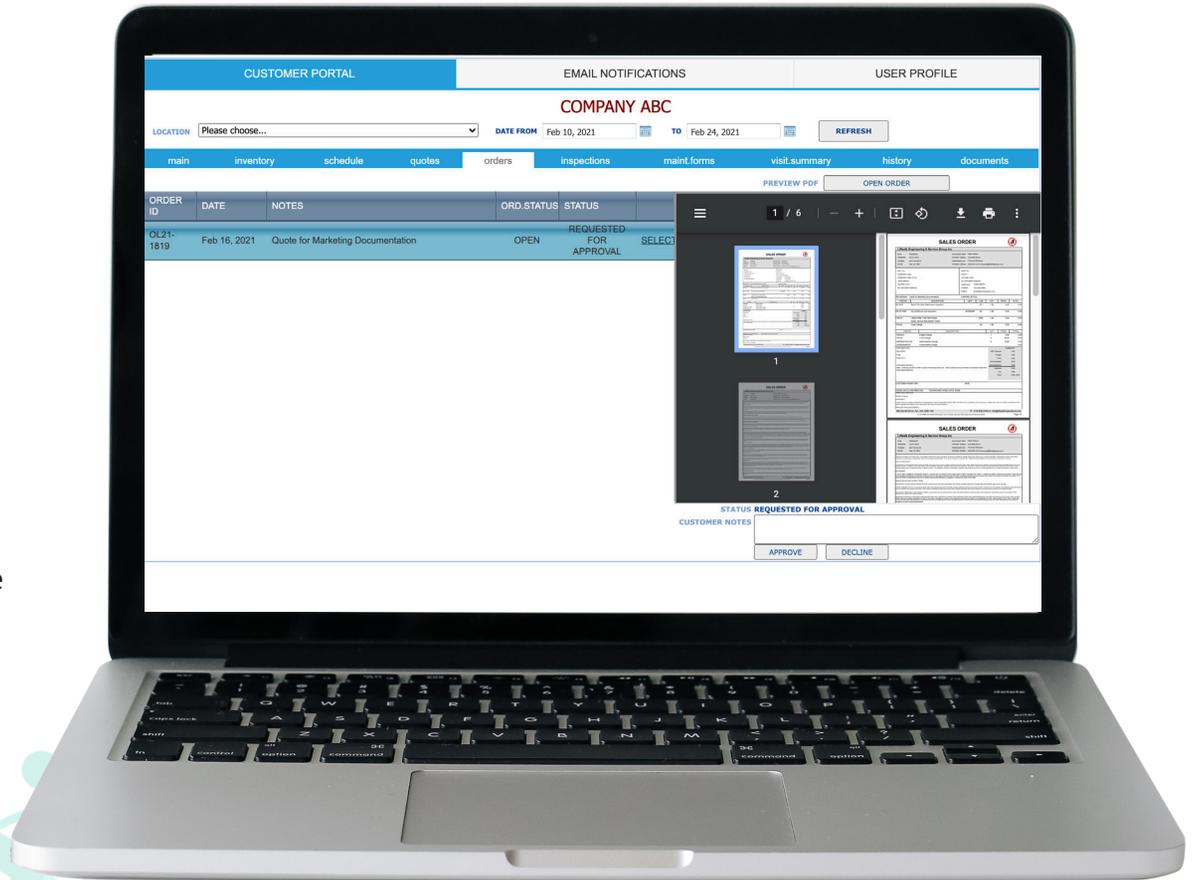

- 1 Select the correct location
- 2 Select the date range
- 3 Select refresh

Sorting Based on Location

The location drop-down menu allows you to access specific information on each location if applicable. To select one specific location, select the location from the drop-down menu and click.

Sorting Based on Date

This field can be adjusted to backdate and receive further information on previous work. By clicking on the calendar, you will be able to check your history to ensure your date range of work is met. Once your date range is selected, press the refresh button to update.

How do I read the data?

ORDER ID	DATE	NOTES	ORD.STATUS	STATUS
----------	------	-------	------------	--------

Once you have refined your search your orders data will display under the tool bar menu. The inspections tool bar is interactive, all search criteria can be sorted to ensure finding your inspections is easy and efficient. For example, clicking the status heading will enable you to sort by various statuses such as safe or not safe. Please note it is possible to sort based on multiple criteria such as type and status.

Tool bar includes:

- Certificate:** All certificates pertaining to your inspection can be found under the certificate heading. Clicking on any of the specific certificates will generate a PDF that can be printed or saved. All inspection points are documented and contain comments and appropriate statuses based on the inspection performed.
- Def Photos:** Should there be any deficiencies with any of your inspection items, a detailed list with photos will be found here. Once you click on any of the listed deficiencies a PDF will generate which can be saved or printed.
- Date:** The date of your inspection can be found here and can be used to sort your data by date.
- Status:** This column allows you to quickly view the status of your items that were inspected. By sorting this you can quickly see which of your equipment requires action or which of your items are safe.
- Type:** This column provides you with the ability to filter based on equipment type. For example, if you are looking to view all basketball inspections, click the heading to filter.
- Tag id:** The tag id is our internal records number to keep track of maintenance performed.
- Equip id:** The equipment id is the clients external reference number for equipment (if provided) to allow for easy search and tracking.
- Ship to:** Location the equipment is sent to for maintenance or repairs.
- Notes:** Notes made by our technicians when inspecting equipment.

Accessing your certificates

Be sure to select location, date and click refresh (remember you must always click refresh when you are adjusting date ranges and locations).

- 1 Click on the certificate number found on the far left column. A pop-up with a link to the certificate will generate.

Understanding your certificate

Each certificate has a uniform layout.

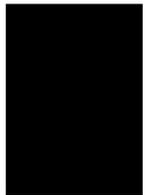

- 1 At the top you will find the certificate number, equipment ID, and the sales order number.
- 2 You will then see all of the relevant data we have for that particular item including location, size, material, and more.
- 3 In the middle of the page, you will see the various inspection points we look at when we inspect your equipment. Some inspection points don't always apply to a given item. Having this breakdown allows you to see what areas of the item passed / failed with either a check mark or X in the status column.
- 4 There is also an additional column where technicians can put comments and a hazard class which are defined at the bottom of the certificate.
- 5 Above the hazard class icon legend, an overall item status will be displayed indicating if the item is "Safe" or "Not Safe." This section will include an image of the item inspected and the name of the technician who inspected the equipment, in the event you have additional questions.

Navigating the maintenance tab

The MAINTENANCE TAB houses all relevant maintenance records for any particular piece of equipment. Keep track of your crucial paper work, such as previous maintenance records to ensure everything you need is conveniently located in one place. All of these documents can be accessed on demand and can be printed or saved based on your needs.

1 LOCATION COMPANY ABC (H.Q.)

DATE FROM Jan 01, 2020

2 Feb 11, 2021

3 REFRESH

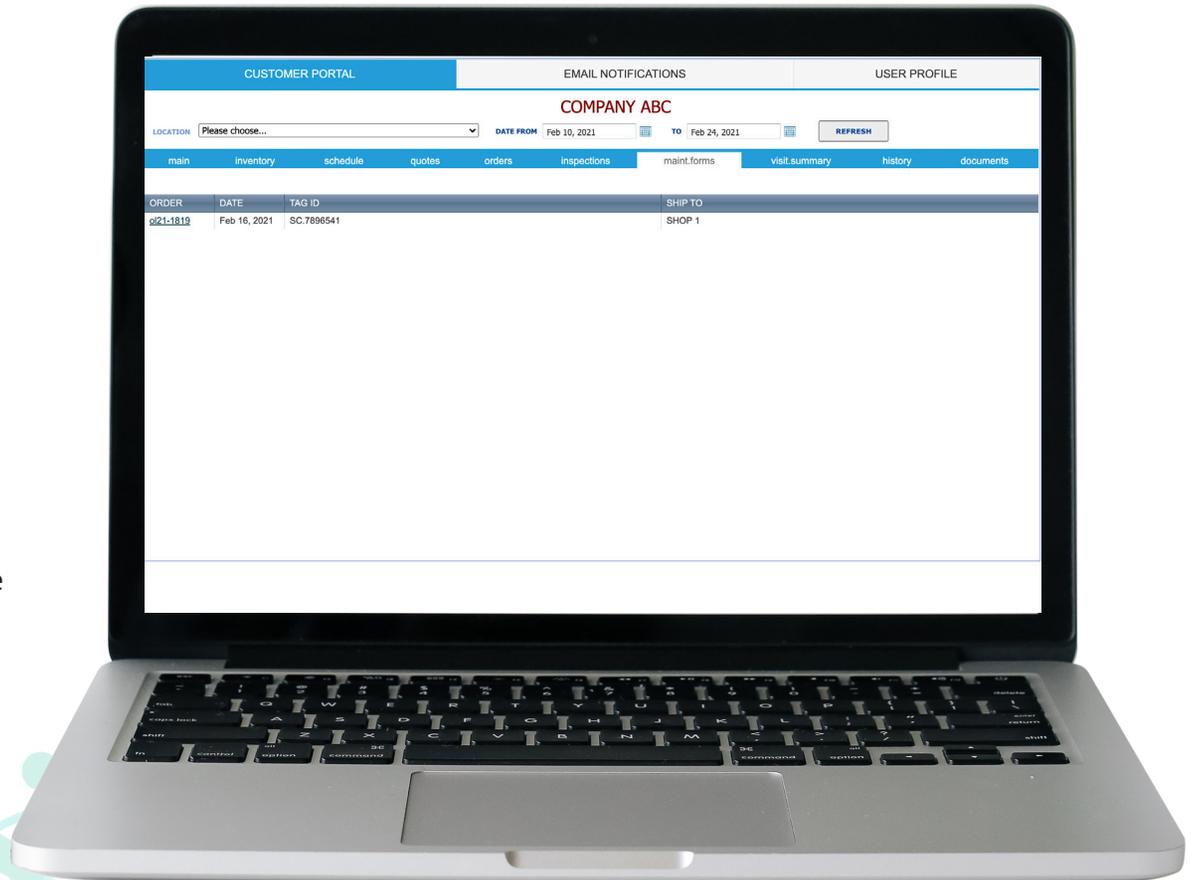

- 1 Select the correct location
- 2 Select the date range
- 3 Select refresh

Sorting Based on Location

The location drop-down menu allows you to access specific information on each location if applicable. To select one specific location, select the location from the drop-down menu and click.

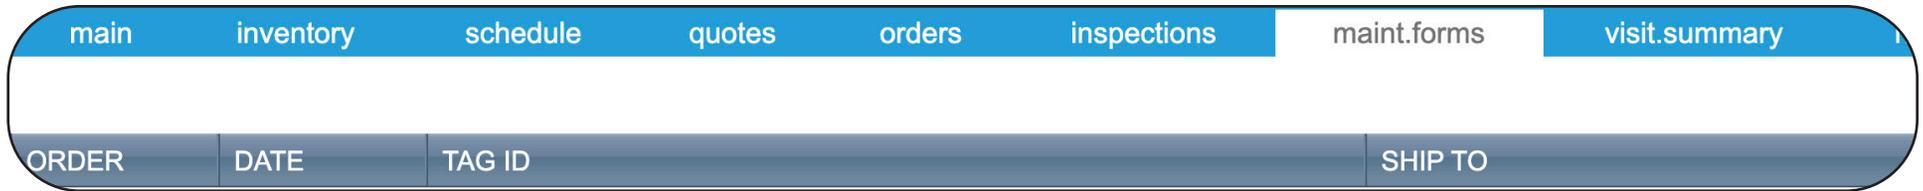

Sorting Based on Date

This field can be adjusted to backdate and receive further information on previous work. By clicking on the calendar, you will be able to check your history to ensure your date range of work is met. Once your date range is selected, press the refresh button to update.

How do I read the data?

Once you have refined your search your maintenance data will display under the tool bar menu. The tool bar is interactive, all search criteria can be sorted to ensure finding your orders is easy and efficient. To verify if a heading is interactive you can simply scroll over the heading, if interactive a message will appear saying “click here to sort”.

Tool Bar Includes

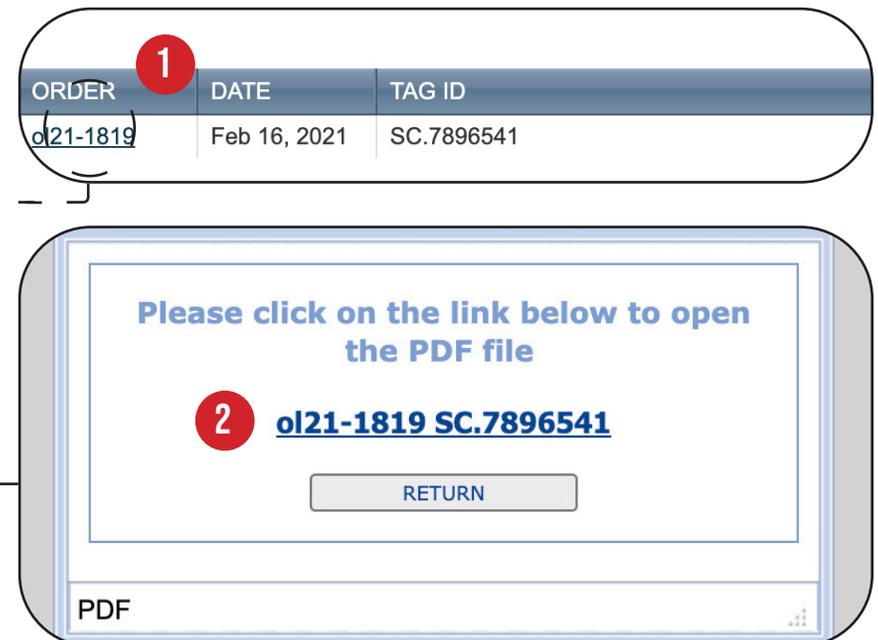

Order ID *	Assigned order number from the Liftsafe system.
Date	Scheduled date of repair.
TAG ID	Liftsafe certificate number.
Ship to	Customer company name.

How do I review my work order?

Select location, date and click refresh (remember you must always press refresh when you are adjusting date ranges and locations).

- 1 Clicking on any of the work order numbers to the left will open a document pop-up.
- 2 This pop-up will include a link to generate a PDF in a separate tab.
- 3 This PDF will detail the work that has been completed, the status of the work and the time it took to complete the repairs. This PDF can remain saved here, or printed for your convenience.

Navigating the visit summary tab

The SITE VISIT SUMMARY TAB allows you to get a detailed report of the work performed on any given work order. Your Customer Portal Account will populate the SITE VISIT SUMMARY screen, where you will be able to see a synopsis of the work that was performed at a specific location. Here you will be able to review the work, account for unsafe equipment and gather all pertinent information to proceed with repairs.

FAQ

Frequently asked questions about the Liftsafe Customer Portal

Q. Why am I getting email notifications?

A. Your email notifications are pre-set to send you reminders for your inspections, and services. You can edit the frequency of notifications using the following instructions. Once you have clicked on the email notifications tab you can select or de-select any of the boxes that do or do not apply to your account.

Once satisfied with your notification selections, click save. Not clicking save will cause your updates to be lost when you navigate away from the page.

Q. Why can't I find my data?

A. Be sure to select location, date and click refresh (you must always click refresh when you are adjusting date ranges and locations).

The location drop-down menu allows you to access specific information on each location if applicable. The date can be adjusted to backdate and receive further information on previous work. Once your date range is selected, press the refresh button to update.

Q. How do I reset my password?

A. The USER PROFILE tab is where you can reset your password when you first get access to your account and can be accessed at any time for security changes. Your company information and email on file will be listed. To reset your password:

1. Click on the user profile tab.
2. Type in your existing password.
3. Type in your new password.
4. Retype your new password.
5. Click save.

Q. How do I merge PDFs?

A. When on the INSPECTIONS TAB, PDF MERGE allows you to combine all or some of your certificates into one PDF document.

1. Click on the PDF MERGE button in the top left corner
2. Set location, date and type, then click find.
3. Click add on the certificates you would like to add into the PDF.
4. When finished adding all the certificates, hit PDF MERGE.

Q. Where is my reset password email?

A. Have you reset your password but have not received the confirmation email? This email is often sent to your junk box and we recommend checking that before resetting your password again. If the email is still missing please contact us via one of the following methods.

1. Toll Free: 1-800-977-2005
2. Phone: 519-896-2430
3. Email: info@liftsafeinspections.com

Q. What is a PM alert?

A. A PREVENTATIVE MAINTENANCE alert, assigns PM frequency relative to each piece of equipment. Remember to set an alert for your PM schedules to ensure your equipment is always properly maintained.

Q. How do I access my certificates?

A. To access your certificates under the INSPECTIONS TAB, be sure to first search the location and date and click refresh (remember you must always click refresh when you are adjusting date ranges and locations).

Click on the certificate number found on the far left column. A pop-up with a link to the certificate will generate.

Q. How do I set a PM alert?

A. Under the INSPECTIONS TAB simply go to the column that says PM alert, click on Not Set. The update item pop-up will open and you can adjust the PM alert frequency before selecting the save button.

Q. How do I approve/decline/edit an order?

A. Under the ORDERS TAB be sure to select location, date and click refresh. Click on 'select' found on the far right column of any order. A preview of the order will generate. Once you are ready to approve your order, click the approve button at the bottom of the page and the status will update accordingly. To edit your order you will see a customer notes section at the bottom of the PDF preview. You can make any comments or document any questions for us to review before the quote is approved. You must select approve to send edits. Your request will be confirmed by one of our reps. If you encounter any issues contact us at 1-866-496-6600.

Q. How do I submit a multi-items request?

A. Under the INVENTORY TAB go to the top right corner and select the Multi-items Request button. This will open a pop-up window showing all of your annual inspection items for this location. Fill in the form and click send.
