

## CABIN INTERIOR ACCESS STAND

### DESCRIPTION

The Cabin Interior Access Stand is ideal for use in the aisle and is designed to fit over most economy class seats. It functions as a single worker unit with a capacity of 330 lbs. It is collapsible for easy carrying and storage.

The ladder is of durable construction made primarily of structural aluminum with stainless steel hardware and a self-weight of only 25 lbs. Anti-slip ladder steps ensure maintenance staff and employee safety during operation.

The Cabin Access Stand is ideal for ramp use and can easily be carried or stored on ramp stairs.

### WHAT OUR CUSTOMERS ARE SAYING

*"We find that Liftsafe Fall Protection is more than willing to work with us in creating safe, economical and multi-purpose designed equipment, tailored to our needs."*

### PRODUCT FEATURES

- Single worker unit with a capacity of 330 lbs
