

SPECIFICATION SHEET

CONVEYOR NETTING SYSTEMS

CEILING MOUNTED

This netting system ties into the ceiling support structure to provide complete side coverage and undercoverage for the conveyor, preventing products and items such as conveyor rollers from falling to the ground below.

FLOOR MOUNTED

This netting system provides side coverage and undercoverage for the conveyor, preventing products from falling and striking someone below as well as preventing product damage or loss from a fall.

CONVEYOR NETTING SYSTEMS

An “engineered” system consisting of custom-fitted netting panels, rigging hardware, and cables.
