

SPECIFICATION SHEET

PIT NETTING SYSTEMS

Our Pit Netting Systems provide a rated fall protection solution that integrates with your existing service bays and floor openings, offering a reliable solution with minimal disruption to daily operations. These systems are easy to move when your pits are in use and straightforward to install with only minimal modifications (requiring some welding of lugs for cable installation).

Our affordable and dependable system is your answer to maintaining a secure environment and protecting against potential falls.

PIT NETTING SYSTEMS

An “engineered” system consisting of custom-fitted netting panels, rigging hardware and cables.

SPECIFICATION
