LIFTSAFE

STANDARD TYPES OF INSPECTIONS OFFERED

We started off with Inspections and that's where our expertise lies. At Liftsafe we offer the most comprehensive and reliable inspections in the business. Our 35+ years of inspection experience sets us apart from the competition.

50

EXPERT EMPLOYEES

We employ over 130 expert employees which includes: in-house engineering, a full design team, fabrication team, inspection teams, expert office team, quoting and service team, and an experienced management team.

78

TREES HAVE BEEN SAVED

A typical cord of wood that measures 4' by 4' by 8' or 128 cubic feet and produces nearly 90,000 sheets of paper. In one year we perform over 23,000 inspections, which would traditionally result in over 270,000 pieces of paper. Carrying this number through, since we launched Wireless/Paperless reporting, we have saved 78 trees.

63

MOBILE INSPECTION DEVICES

To date, Liftsafe has 63 operational Mobile Inspection Devices. We utilize the latest wireless technology to ensure you get your inspection certificates in the shortest period of time.

220

USERS PER DAY

On average Liftsafe has 220 users on our Customer Portal per day.

THE NUMBER OF COMPANIES YOU NEED

From Inspections, to Service and Engineering, Liftsafe is your single source for facility safety.

LIFTSAFE

ONTARIO'S ONLY CSA N299.3-CERTIFIED COMPANY

We're proud to be the only company in Ontario certified to CSA N299.3, the Canadian standard for quality assurance programs in the nuclear industry (Category 3). This certification confirms that our manufacturing, inspection, and service operations meet the strict quality, traceability, and regulatory requirements demanded by nuclear clients, and reinforces our commitment to delivering safe, reliable, and compliant solutions across every project.
